(enough for five students)

Lesson 10 Art
Pray First 11x17 flag

Lesson 10 Art
Pray First 11x17 flag -
multi-colored (6 colors)

Year 3 - Version A

VERBAL REVIEW INSTRUCTIONS

Length of Interactive Test: 20 minutes

Setup Instructions:

- Students should sit at tables during the test.
- Each student should have a Bible, the paper answer sheet, a piece of construction paper to glue them on their answer sheet, and a pencil.

Atmosphere of the Room:

- Uplifting and fun.
- Positive and encouraging.

Values:

- Visiting students should not take the test. Alternate ideas for these students are listed in the curriculum.

Test Instructions:

- The Lead Teacher should not facilitate the test for their own class. The Director or a different Lead Teacher could fill the role instead. The facilitator should know the material, be able to ask questions at a K-1st grade level, and be able to rephrase questions as needed to help students understand the questions.
- Make sure students clearly write their first and last names on their answer sheet, since they might be given to parents. As an alternative, class percentage results on topics could be sent home.
- The questions are designed as multiple choice questions with clear picture choices. Have students place their piece of construction paper under the question on their answer sheet as you read to the students. Then, instruct them to circle the correct answer. You may want to demonstrate this. Students should also glue their construction paper on the questions as being asked.
- The facilitator should ask questions, and the Shepherd(s) and OT leader should help keep students on the correct question. Please do not give students the answers. It may be helpful for the facilitator to have a copy of the Answer Sheet for reference while reading the questions.
- Scoring: All correct answers should be circled so teachers and parents can see how their students did. If your church is using numerical scoring, give one point for each correct answer. At the top of page 1 on the student's Answer Sheet, circle the total number of correct answers out of a possible 20. The percentage score is desired, multiply the student's total number of points earned by 100, then divide by the number of total points possible.
